More than a couple of people have wanted on the agenda to express their dis-satisfaction about the SSC. The Chairman has indicated that no agenda meetings will occur with the Commissioners in that regard. That is why I asked what your discussion would be about. She has asked me to prepare a resolution to support all of the volunteer boards which is on the agenda for tomorrow. I will discuss your email with her and if there is any changes in the 'agenda issue', I will re-contact you. But at this point it does not appear I will be authorized to calendar that issue. You can make public comment on our Tues/Thurs meeting days or you can meet with individual commissioners rather than a quorum at this time.

Well, I have concerns about the SSC's intentions. These concerns are based upon articles which state that the SSC will not be allowing any public comments at their meetings, which makes me, for one, very uncomfortable. I think that the lack of public involvement being permitted, especially with such a contentious subject, is not a good way to go. I think that the BCC should educate the SSC and support public comments, good, bad or indifferent.

Thanks

Subject: SSC

Good Morning Glenda

Can I be placed on the BCC Agenda to discuss the SSC? Please let me know.

Thanks

Chris Cobb-Taggart
